Great Live Stock Market of the West

South Omaha, the most central and conveniently located Live Stock Market west of the Missouri River, is so situated as to make it possible for shippers in this territory to avail themselves of the benefits of a

## Large Live Stock Market

To secure the greatest net returns for his product the shipper must have at his command the most modern and improved facilities for the handling of his stock when it arrives at the Market. The Management of the South Omaha Market, in order to place at the disposal of its patrons marketing equipment unequalled elsewhere, has, during the past few years expended over one million dollars for improvements, placing this market in the foreground in the matter of stock handling facilities.

With four large packing houses and the unlimited demand for feeder cattle and sheep of all classes, the prices obtained at South Omaha for all classes of live stock, together with lowest possible cost for freight and marketing, make it possible for the shipper to secure the greatest amount of net money for his product at SOUTH OMAHA.

**12-16-20 Gauge Hammerless "Pump" Guns**

**The Marlin**

The Marlin repeating shotgun is a fine-appearing, beautifully-balanced gun, without any objectionable humps or bumps; no holes on top for gas to blow out through or water to get in; can't freeze up with rain, snow or sleet; its solid steel breech (not a shell of wood) permits a thoroughly symmetrical gun without sacrificing strength or safety; it is the safest breech-loading shotgun ever built. Six shots in 12 and 16 gauges; five in 20 gauge.

It is Hammerless with Solid Steel Breech (inside as well as out)—Solid Top—Side Ejection—removes loaded cartridges quickly from magazine without working through action! Double Extractors—Take-Down Feature—Trigger and Hammer Safety. Handles rapidly; guaranteed in shooting ability; price standard Grade "A" 12-gauge gun, \$22.00; 16- or 20-gauge, \$24.00.

Send 2 stamps postage for big catalog describing all Marlin repeating shotguns (hammer and hammerless), all Marlin repeating rifles, etc. Do it now!

**If you shoot** a rifle, pistol or shotgun, you should have a copy of the **Ideal Hand Book**—100 pages of useful information for shooters. It tells all about powders, bullets, primers and reloading tools for all standard rifle, pistol and shotgun ammunition; how to measure powders accurately; shows you how to cut your ammunition expense in half and do more and better shooting. This book is free to any shooter who will send three stamps postage to The Marlin Firearms Co., 42 Willow St., New Haven, Conn.

#### NOTES FROM THE PERU STATE NORMAL SCHOOL

The Peru State Normal school opens for the fall term Sept. 14. The indications are that the senior class will register the unprecedented number of two hundred to two hundred twenty-five members, the present year, with other classes in proportion.

It is the desire of the normal school authorities to extend its usefulness and to broaden its field of work so as to meet the needs of every department of Nebraska's public school system. For this purpose courses have been added from time to time until now the Peru State Normal offers practically every course that is to be found in the best and most up-to-date normal schools of the United States. By reciprocal

relations with the University, students may take the first two years of their college course at the Peru State Normal School and then enter the University as juniors, completing the work there for the degree Bachelor of Arts in two years. This is not only true for those who wish to complete the work for the Bachelor of Arts degree but also for those who wish to enter the Manual Training and Mechanical Engineering departments of the University.

Plans are being formulated to start extension work in a large number of the counties of southeastern Nebraska. This will be done thru organization of classes among rural and town-school teachers which will be conducted by faculty members on Saturdays. It is probable that courses will be organized in Grammar, Arithmetic, Geography, Play Ground

Supervision, Agriculture, Manual Training and Home Economics, according to the demands of the various counties and the ability of the normal school to provide instructors sufficient to carry on the work.

It was thought for a time on account of the rapid advance in price of food stuffs caused by the great wars in the east that it would be necessary to advance the price of board in the state dormitories. However, the low price of \$2.50 per week will be maintained the present year, the same as heretofore. Students will also find ample number of places in private homes where board may be had at the same low prices prevailing in former years. A few of the boarding houses, by mutual agreement with their boarders, have arranged for a slight advance in the price of board.
